

# STAR Curriculum WORKSHOP

*Strategies for Teaching based on Autism Research*

**Pullman, WA**

**December 4, 2017**

**8:30am—3:30pm**

**December 5, 2017**

**8:00am—3:00pm**

## STAR Workshop Content

- The instructional methods of discrete trial training, pivotal response training, teaching functional routines, and positive behavior interventions and supports form the instructional base of this comprehensive program. Participants receive examples of STAR Program lesson plans at each instructional level in order to practice their skills in implementing the program.
- Learn the STAR Program's curriculum content
- Watch video and demonstrations of the three instructional methods in the STAR Program

## What You Will Learn

- Developmental curriculum content appropriate for students with ASD and other developmental disabilities
- Curriculum-based assessment techniques for baseline and progress monitoring
- To use Applied Behavior Analysis (ABA) to teach new skills
- To teach student with ASD to be independent and to generalize skills within their daily routines

## What you will receive

- Extensive Handouts
- A certificate for 12 hours continuing education credit

**"Finally a workshop on autism that provides applied and practical suggestions that I can use immediately."**

*- Special Education Teacher*
