Title	Description
Caregiver Generalization Report	The SOLER Caregiver Generalization Report is used to obtain generalization data from the student's caregiver on skills that have been taught in the SOLER social skills group.
Frequency Data Form	The SOLER Frequency Data Form measures the number of times a student engages in a target skill. This form can assist the instructor in determining if the student has met mastery criteria on a skill taught.
Group Tracking	This form tracks student group or individual student completion of lessons and progress through the SOLER curriculum.
Quick Reference Guide for Data Collection	This guide provides a quick overview of the SOLER data collection steps and resources.
Session Data Form	The SOLER Session Data Form is used to record student data on Phase 1 and Phase 2 of instruction for each lesson. This form tracks student progress during SOLER lessons.
Teacher Generalization Report	The SOLER Teacher Generalization Report is used to obtain generalization data from the general education teacher on skills that have been taught in the SOLER social skills group.
Unit 1 Alignment Guide	This guide aligns the CASEL Area of Competence, example SEL Learning Standards, and SOLER Unit 1 lessons and skill targets. The alignment guide provides sample IEP goals for each SOLER lesson.
Unit 1 Caregiver/Teacher Interview Form	This form collects student baseline data on each set of lesson skills taught in Unit 1. This information can be used to help establish a student's current level of performance in the general education classroom and at home.
Unit 1 SOLER Curriculum Assessment	The SOLER Curriculum Assessment for Unit 1 identifies the appropriate unit to begin instruction. This assessment also provides the instructor with the tool needed to conduct a baseline assessment on all Unit 1 skill targets and continuously monitor student progress across Phase 1, 2, and 3 for all Unit 1 lessons.
