Links EC Functional Routine Overview Task Analysis Introduction

Instructions:

- During a group discussion, identify a routine (arrival, computer use, using the water station, handwashing, making a phone call).
- One team member acts out the routine steps.
- Other team members write down the behaviors observed for each step of the routine.
 - Note: Have between 6-8 behaviors for each step.
- Use the attached routine form.
- Reverse roles until all team members have acted out a routine.

Step #	Step # Routine Identified What is the observable behavior, be specific (example: takes phone out of bag)			

Materials Needed	Coach / Trainer Responsibility	Personal Reflection	Group Discussion
None	None	Write down any questions you have about steps in a routine. Ask the coach to answer your questions.	Compare and discuss each team members identified steps of the routine.
