

## Friendship Invites

I like to have friends at my school. I can be friendly in many ways.

---

When I see my friend, I can wave and say "Hi," or I can say their name.

## Friendship Invites

I can ask my friends to play by saying, "Do you want to play with me?" or by handing them a toy. I can also ask, "Can I play with you?" or ask my friends what they are playing with.

---

I can be friendly by sharing and taking turns with the toys that I like.

## Friendship Invites

I can also be friendly by talking with my friends. We can talk about many things, such as our hobbies, our families, school, or TV shows and movies we like. I can ask my friends questions and listen to what they say.

---

It is also friendly to say goodbye when school is over, or when I am done talking with a friend. I can say, "Bye," "See you later," or, "Have a great day!" I can also wave goodbye.

## Friendship Invites

When I am friendly, other kids at school will want to play with me. This is how I make friends!
