

Dealing with Change

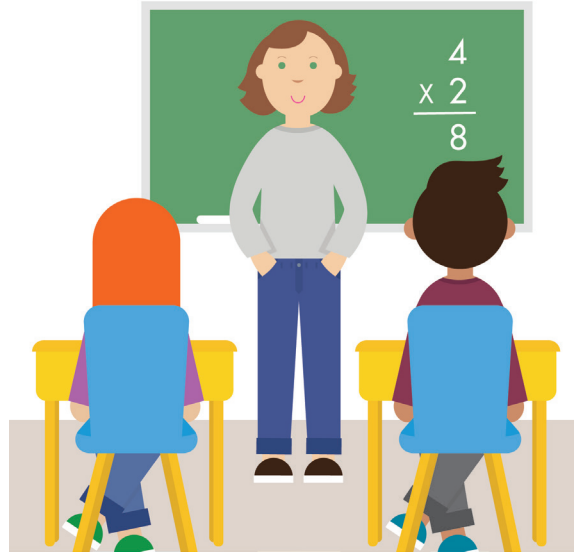

At school, I follow a schedule. My teacher plans the schedule. Some activities on my schedule may be morning meeting, small group activity, P.E., lunch, and math.

Sometimes my schedule changes. Some of these changes are expected, such as a field trip or an assembly. Some changes are unexpected, like a fire drill.

Dealing with Change

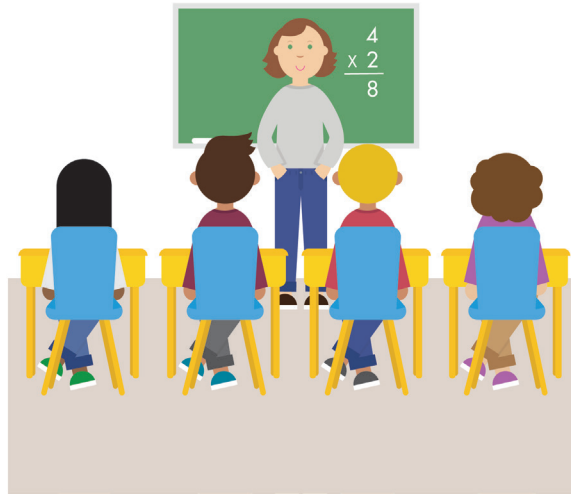

When an unexpected change happens, my teacher will tell me what to do. It is important to stay quiet so I can follow my teacher's directions. When I follow directions, all students in my class are safe and ready to learn.

Unexpected events may change my schedule. My teacher will tell me the new schedule.

Dealing with Change

When an unexpected change happens, I will stop what I'm doing, stay calm, and follow directions. When I do this, all students will be safe and ready to learn.
